## REPORT OF THE FOREST FIRE WARDEN

---

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90% of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

- (1) Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.
- (2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.
- (3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your cooperation in this way is earnestly solicited.

## ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

To the Hill School Board:

My fourth annual report as Superintendent of Schools for the Town of Hill is hereby submitted. The year has seen an increased enrollment in the school of eleven pupils over last year. This increase has permitted better grade grouping and consequent educational gain.

The installation of an oil burner at the school has provided a much more desirable situation. The building is comfortable at all times and from the figures presently available, it doesn't appear that heating the building by this method will be more expensive than was the coal-fired boiler. The building can be kept cleaner through the use of the oil burner than would have been possible under the old method.

It is hoped that finances will permit the renovating of the interior of the building during this year. Many of the surfaces have never been painted and will deteriorate unless cared for.

Hill is fortunate to have a School Board composed of conscientious individuals who give freely of their own time in connection with school problems. Installation of storm windows in the primary room was a project undertaken by the Board this winter and has made the

primary room much more comfortable. Mr. Dana Charles has spent many hours making minor repairs, adjusting pupil seats and doing general cleaning at the building.

Pupils at the Hill Grammar School continue to do outstanding work under the direction of their two capable teachers. Few communities of any size in this State offer such a splendid educational opportunity for boys and girls as is provided for them in the Hill District.

Respectfully submitted,

DONALD W. DUNNAN,

Superintendent of Schools.
